VERVE

CREATING MEMORABLE SPACES.

CONSULTING | SALES | PROJECT MANAGEMENT | INSTALLATION

Today's carpet mills and manufactures boast bargain-priced carpet and cheap installation. Customers in return get lower quality product, excess inventory, and zero consideration for the design and space needs.

As a result, the space suffers. Not only are carpets ill equipped for the environment, but it fails to enliven, inspire, and create memories.

We never limit our customers' needs and desires. We meet the demands of the finest hotels, restaurants, and commercial establishments across planning, sales, logistics, and installation of custom carpet.

Antilles and Verve partnered to give you the best in custom carpeting sourcing and installation. With almost 50 years in the hospitality and commercial flooring business, our established relationships and expertise have a proven track record. As a customer, you receive specialized professional guidance during all stages of your project with first-rate results.
